

Press Release**For Immediate Release**

Glenmark Generics receives approval from USFDA for Moexipril Hydrochloride and Hydrochlorothiazide tablets

March 18, 2010 : Glenmark Generics Inc., USA , the subsidiary of Glenmark Generics Ltd, today announced that the USFDA has granted final ANDA approval for Moexipril Hydrochloride (HCl) and Hydrochlorothiazide tablets - the generic version of Schwarz Pharmaceuticals' Uniretic®. The product is currently available and will begin shipping immediately.

Moexipril Hydrochloride belongs to a class of drugs considered as ACE inhibitors. Glenmark's combination product of Moexipril Hydrochloride plus the diuretic hydrochlorothiazide is indicated for treatment of patients with hypertension. Total sales for this combination during 12 month period ending December 2009 were USD 8 million, according to IMS Health.

Today's approval comes shortly after Glenmark's announcement of final ANDA approval for Ropinirole Hydrochloride tablets, the generic version of GSK's Requip® tablets. Glenmark has just launched Ropinirole Hydrochloride tablets in the US market. According to IMS Health, total sales were in excess of USD 104 million for the 12 month period ending December 2009.

Glenmark is currently authorized to distribute 51 products in the United States. The Company currently has nearly 98 ANDAs filed or marketed in the U.S. and continues to rely on the strength of its internal pipeline projects as well as continuing to explore partnerships to augment the breadth of their existing portfolio.
